Jerry Zimmerman, Chair
LCR MSCP Steering Committee
Colorado River Board of California
770 Fairmont Avenue, Suite 100
Glendale, CA 91203-1035

Dear Mr. Zimmerman:

I want to thank you for the invitation to become involved in the LCR MSC I hope our participation will benefit all of those concerned.

Our organization was founded in Brawley in 1980. The main purpose at th time was to mitigate the problems caused by the concrete lining of tl Coachella branch of the All American Canal. The steep angle and slippe sides of the Canal prevented the indigenous wildlife, especially deer, fro exiting after entering to drink. Our solution to the problem included, b was not limited to, the construction of artificial drinkers in the desert are Since then our conservation efforts have broadened to include creation upland game bird habitat for wild birds and also raising additional uplai game birds for release in that habitat. We are also very involved in tl reclamation efforts of the New and Alamo Rivers. As the lead entity v have been instrumental in the construction of two water reclamation projec in the New River channel.

The participation group that best fits our agenda would be 7.3.1.7 (Oth Interested Parties)
